

GOAL ZERO - MULTI-PURPOSE LIGHT

TORCH 500 MULTI-PURPOSE LIGHT

Torch 500 multi-purpose light

The most reliable emergency light for any situation is now waterproof. Featuring an IP67 rating, the new Torch 500 is built to withstand the elements. Designed for multi-functional use, the Torch boasts 500 lumens of bright LED light dispersed across spotlight and floodlight options. Recharge from the sun with the built-in solar panel or from any USB source, and charge up your phone in a pinch from the increased 5200 mAh battery.

Multiple Light Options

Adapt your light to fit the situation at hand. The Torch 500 equips you with both a 300 lumens spotlight and 300 lumens floodlight, each available with three different light settings: high, medium, and low.

Waterproof

IP67 rating ensures protection against dust, sand and debris, and can withstand submersion up to 1 meter of water for at least 30 minutes. Perfect for emergency lighting or to take along on outdoor adventures. No go-bag or camp kit is complete without it.

Stay Connected

Increased 5200 mAh battery gives you enough power on hand to charge phones and headlamps multiple times, or boost your tablet.

Recharge Anywhere

Features a built-in solar panel to recharge from the sun and USB-C input port to charge from any USB source.
